Onesimus Director — Comparison Report

Date: 20260329-145715

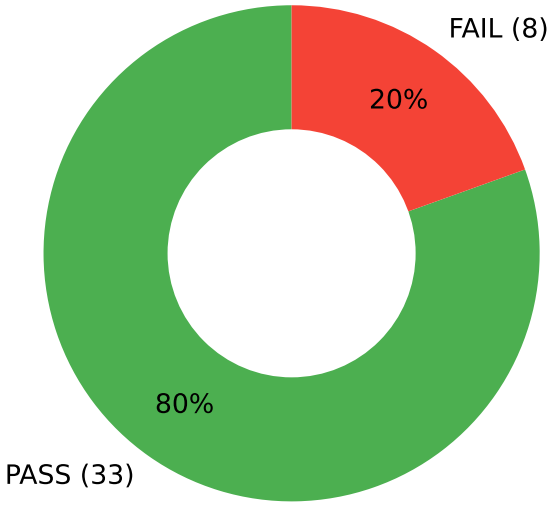

```
Host:     WS-JOERG.intranet.bernau.family
OS:       Linux-6.12.74+deb13+1-amd64-x86_64-with-glibc2.41
Kernel:   6.12.74+deb13+1-amd64
CPU:      AMD Ryzen 9 9950X 16-Core Processor
RAM:      60.4 GB
Python:   3.13.5
```

```
C++ Director:
  Port: 9101
  unknown

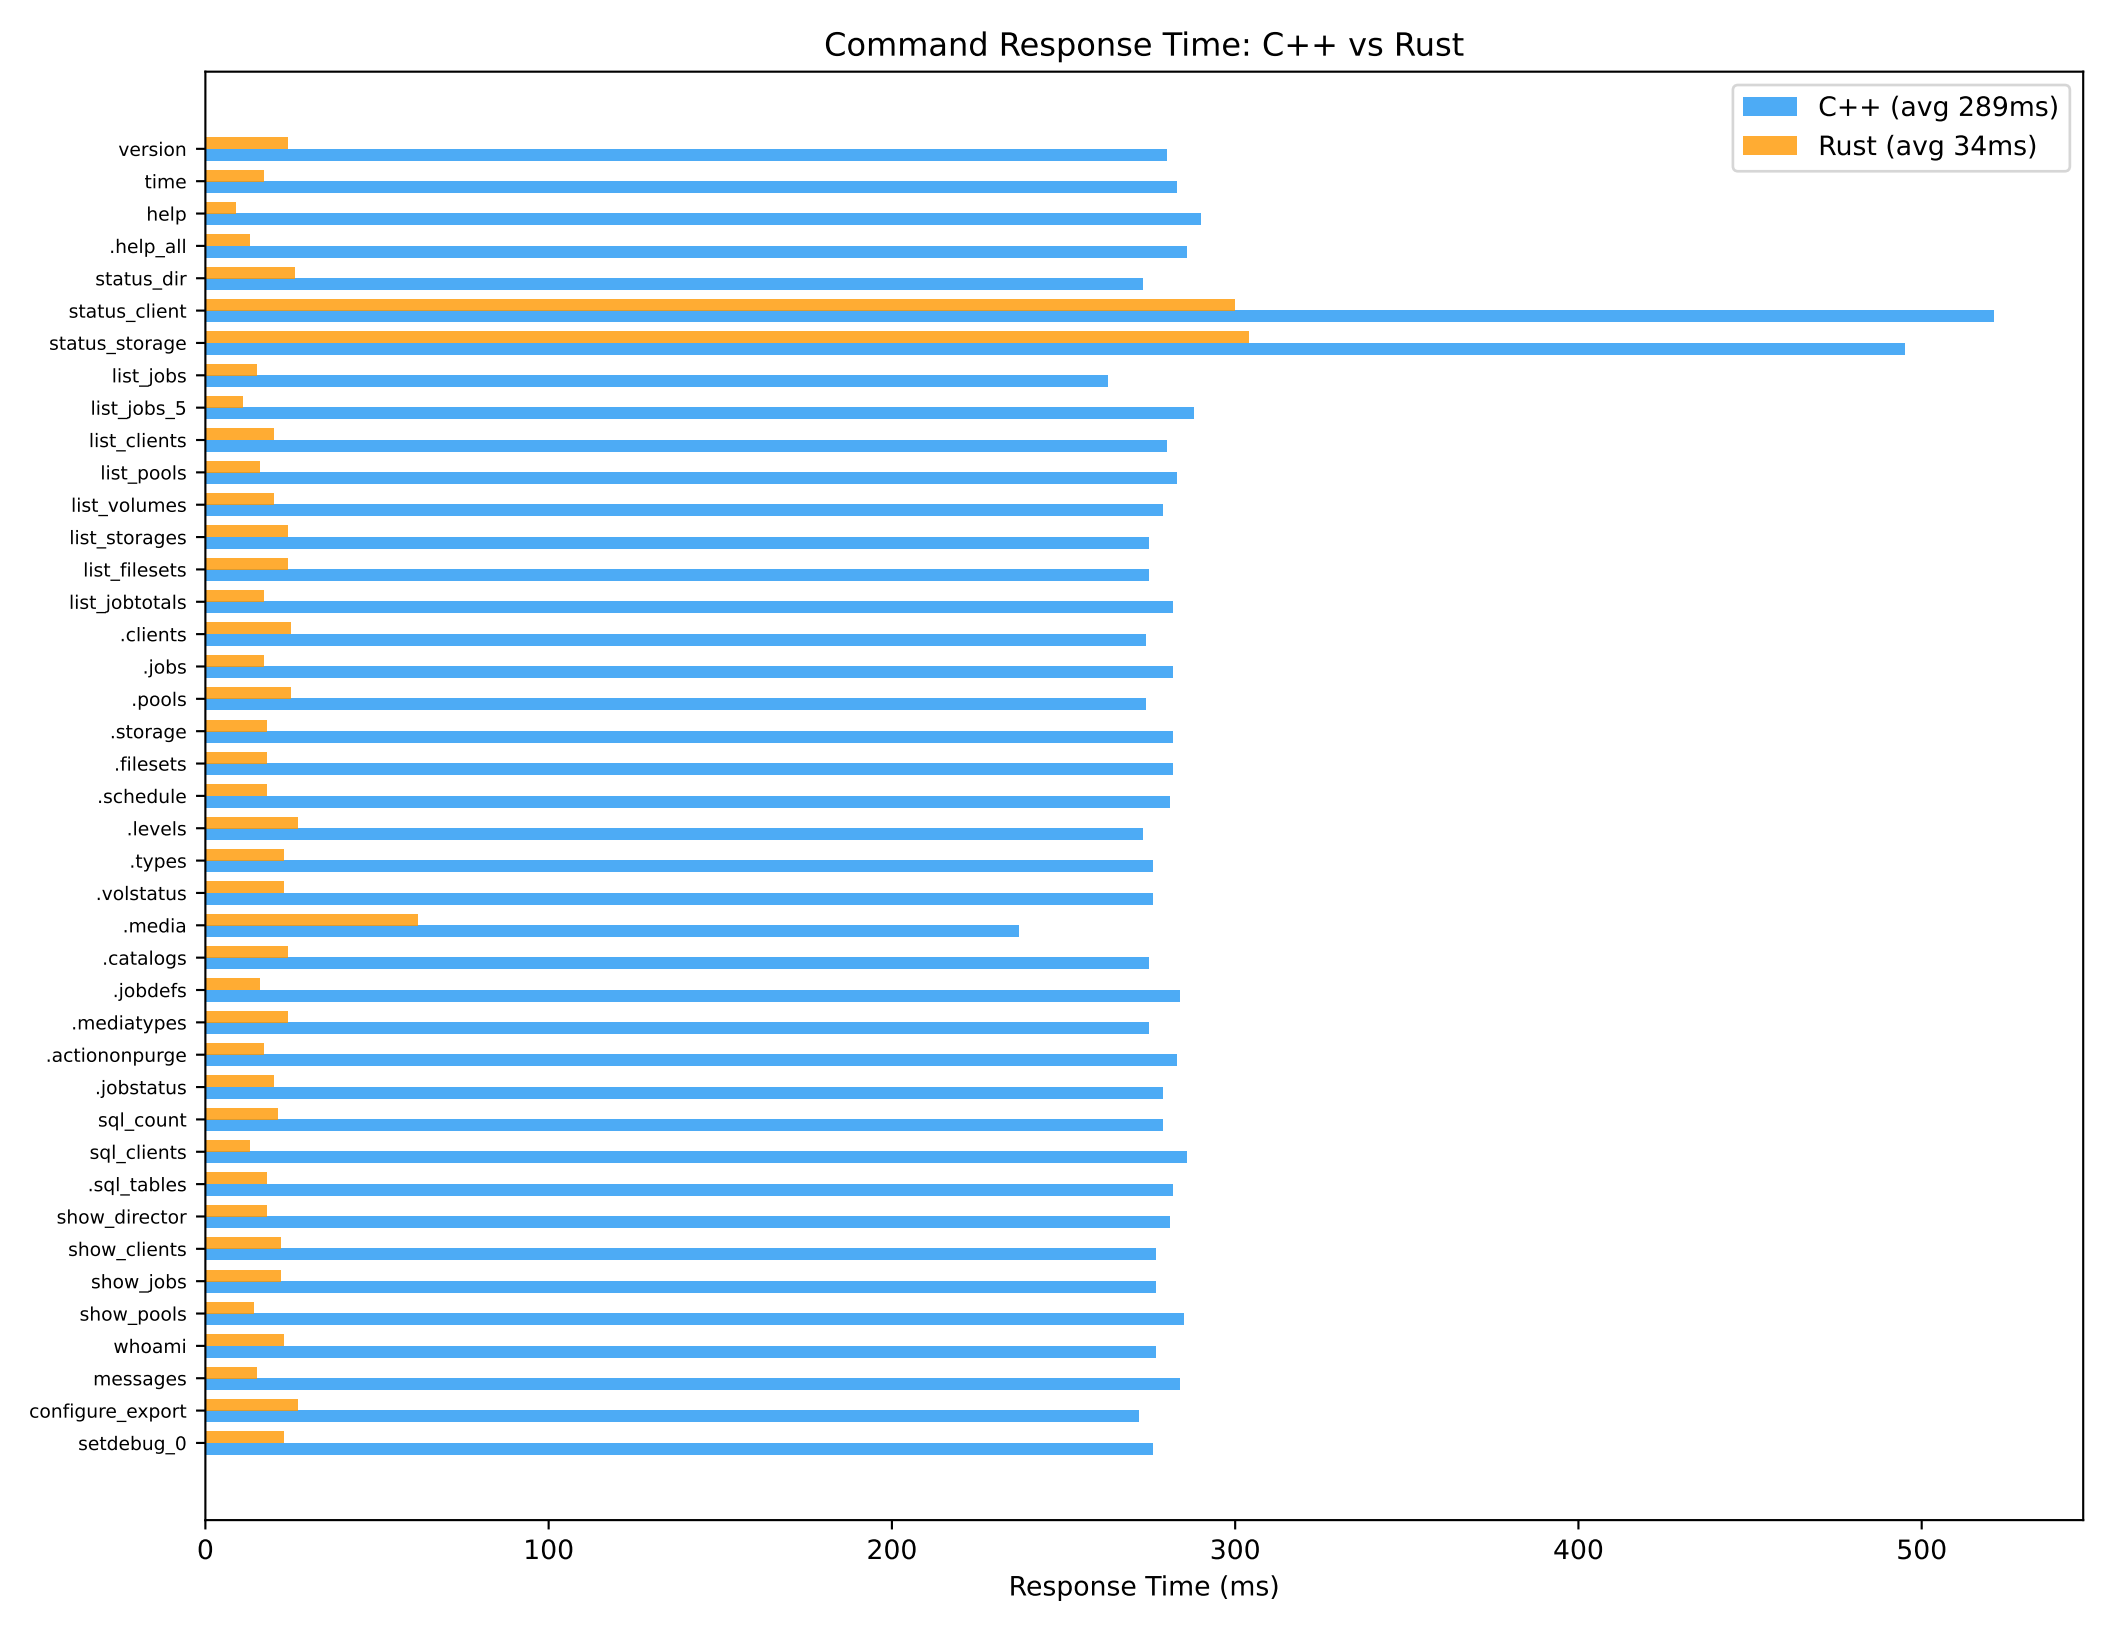

Rust Director:
  Port: 29101
  onesimusd 0.25.0
```

```
  Total: 41    Passed: 33 (80%)    Failed: 8    Skipped: 0
Avg Response:  C++ = 289 ms    Rust = 34 ms    Speedup: 8.5x
```

Method: bconsole pipes command → stdout captured → ANSI stripped → timestamps/versions/IDs normalized → sorted line comparison

```
Failure Analysis:
  help: Version string difference — different binaries, expecte
  .help_all: Version string difference — different binaries, expecte
  list_filesets: Output format difference — Rust shows more/fewer detail
  .jobs: Output content mismatch — check diff for details.
  .filesets: Output content mismatch — check diff for details.
  show_director: Port difference (C++ on 9101, Rust on 29101) — expected
  show_jobs: Output format difference — Rust shows more/fewer detail
  configure_export: Port difference (C++ on 9101, Rust on 29101) — expected
```

Command Response Time: C++ vs Rust
